Molly Kule®

MOLLY KULE®
Notes from sketch illustrations
and design direction:

Molly Kule is from a small race of people on Nuke's sister planet that make great ship co-pilots.

We need Molly Kule to have the ability to change to molecular size when she is doing any kind of molecular investigation or work for Capt. Energy. Clever and super intelligent with all the physical assets of a modern-day pixy, Molly Kule will champion the good causes for Captain Energy.
